

Define the problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

PROBLEMS

Many businesses use their own method to keep track of their income and spending because they believe this to be the most important factor in how well their operations are doing, it is a good practice to keep track of daily spending, and tracking them over the course of a month is crucial since it gives insight into how money is spent and aids in creating a better budget for the days ahead. Because of this, monitoring and tracking personal spending has never been easier.

Brainstorm

Vasanth R

- Allow categories on expenditure
- Add monthly estimated income and expenditure limits
- Provide multidevice support

Sudhakar S

- Multiple Login Methods
- Light Weight Web App
- Colorful Visual Graphs

Subhuhani S

- Good UI/UX
- Allow Dark Mode
- Maintain Past History

Siva Subramanian

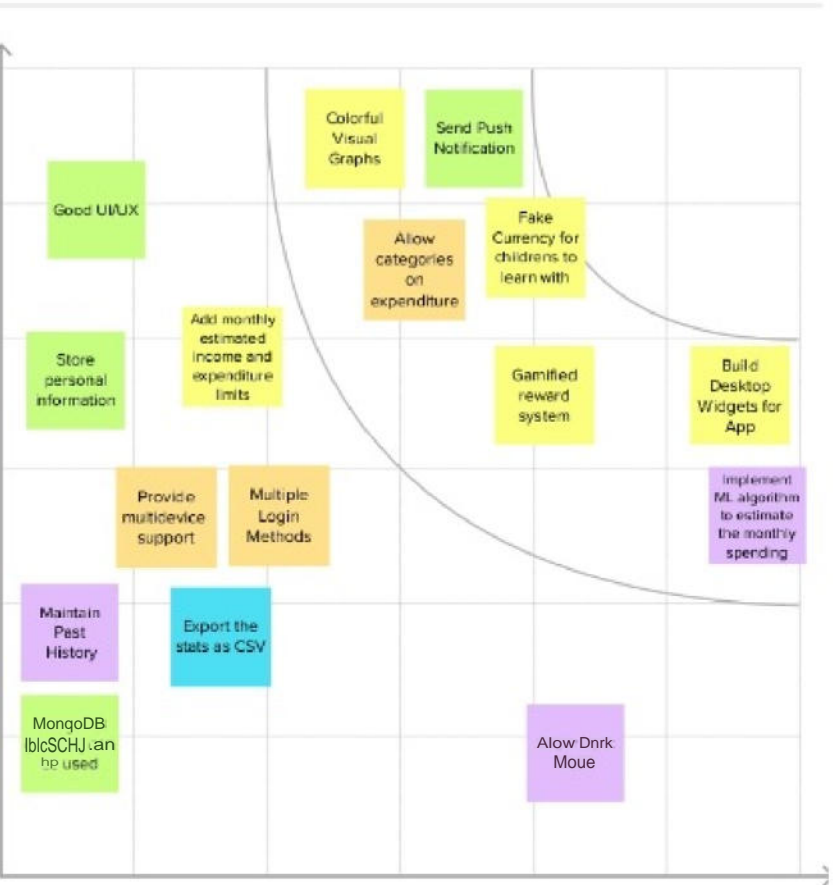

- IBM Database
- Send Push Notification
- Implement ML algorithm to estimate the monthly spending

GROUP IDEAS

- Attractive Dashboard
- User Interface
- Light and Dark mode
- Friendly Animation and Design
- Security
- Hosting and deploying the application on the IBM Cloud
- All transaction and information transfer must be encrypted
- Adding the expense details
- Personal Expense Tracker
- Alerting the person if expense is exceed
- Adding the Income details
